AquaRegister Feature List - June 9th 2011

"Water is the only drink for a wise man"
David Henry Thoreaux

Web based

Affordable
Web based applications typically cost less money and time to purchase, maintain and operate. No initial investments or setup fees are required.

Platform independent
Virtually any computer or tablet pc, running any operating system will allow you to manage your store using AquaRegister.

No setup
There is no difficult hard- or software setup. Just login and focus on what's important: selling.

Fast
AquaRegister is capable of processing thousands of transactions per second.

Secure
Transaction data is stored safely on our servers.

Up-to-date
Web based applications are always up-to-date. It's as easy as that.

Off-site access
Monitor your store from anywhere in the world.

No back-ups
We automatically back-up your data for you.

No headaches
Hardware failure? Theft? No problem. You'll be up and running again in no-time.

Hardware

Touch screen

AquaRegister is designed for touch screen operation but can be operated with a mouse and keyboard just as well.

iPad and other tablets

Any tablet pc with a large enough screen can be used to operate AquaRegister.

Printer and cash drawer

AquaRegister automatically generates and prints receits for every transaction. It also pops the cash drawer just like any expensive standalone point-of-sale.

Barcode scanner

AquaRegister works with barcode scanners to make faster sales.

Customer screen

Connect a second screen to display sales info to your customers at your checkout. After you login, open a second browser window and go to aquaregister.com/customerscreen

Functions

Inventory
AquaRegister allows an unlimited number of articles with all standard characteristics such as names, bar codes, manufacterers, etc.

Employees
Add as many employees as you like and provide them with the rights they need.

Discounts
Add different discount schemes to your system and apply them in live sales.

Coupons
AquaRegister allows you to give out and take in coupons. They make great gifts, or can be used when a customer wants to return an article.

Customizable
Currencies, VAT percentages, receits etc are easily configurable to fit your needs.

Import Data
We can import your current article and client list to facilitate your upgrade from an older pos system.

Accounting
AquaRegister keeps track of all your transactions. Cash differences are noticed quickly because AquaRegister lets you keep a close eye on your money.

Statistics
Detailed statistics show you which products, manufactureres, and employees sell best.

Clean Lay-out
AquaRegister is easy to learn and easy on the eyes. The lay-out and process flow are designed for maximum efficiency and simplicity.

Continous improvement

No product is perfect. Whether you choose AquaRegister or another POS system, you are likely to find shortcomings and develop new functional wishes. At AquaRegister we listen to your ideas and try to implement them where possible. This also means you are likely to benefit from other peoples brilliant ideas. As more people start using AquaRegister, the price will go down and the quality will go up.

Screenshots

Below is a list with screenshots. We will keep expanding the list as our product develops.
